

## TECHNICAL DATA SHEET

<b>Hexpol code:</b>	<b>E11024525E</b>
<b>Name:</b>	<b>Sponge 0,5 ADC free</b>
Product description:	Non cured EPDM sponge rubber compound
Elastomer :	EPDM
Vulcanization system:	Sulphur
Colour:	Black
Density:	1,2 g/cm <sup>3</sup>
Density on cured profile:	0.50 ± 0.5 g/cm <sup>3</sup>

### **Usage:**

Rubber sponge compound applied for the extrusion on UHF or LCM line, preferably in the automotive industry.

### **Application:**

Rubber profiles for the automotive industry, mono profiles or co-extrusion with solid compound

### **Packaging:**

Endless strips, 55 x 8 mm, loading around 380 kg in metal Euro-Gitterboxes.

### **Storage stability:**

21 days from the production date, under dry conditions and temperature range 5 - 25°C.
