

SPECIFICATION SHEET

Name of Product	:	RUBBER OCTOGON RUNNER
Specification	:	100% Rubber
Manufacturing Method	:	Rubber Molding in heavy hydraulic press under high temperature
Colour	:	Black
Type	:	Solid with Drainage Holes
Compound	:	NR
Hardness (Shore A)	:	55° +/- 5°
Density (SG)	:	1.25
Min. Temperature	:	-30
Elongations (min)	:	250%
Tensile Strength MPa	:	4
Properties	:	anti-slip
Thickness	:	22mm
Sizes	:	1m x 7.5m x 22mm
Tolerance Limit	:	+/- 10% on general values
Applications	:	Excellent drainage facilities, wet areas, best for pathways, ware houses, machine rooms, ramps, etc
Features	:	High ground stabilization Good anti-fatigue characteristics, High impact resistance, Anti-slip finish, Low Maintenance.
Packing	:	Bale Packing or Palletized
Storage Instructions	:	Keep well wrapped in a dry place to avoid fungal infections, Store with dry silica gel, if infected with Fungus clean with Silicon.
