

Circular sprinkler

Circular sprinkler „V 70“

Advantage / benefit: ... **Swing arm sprinkler**
Jet interrupter stud for regulation of throw length and drop size

Material: brass; springs and jet interrupter stud: chromium steel

Requirements: 1" hoses and minimum pressure of 6 bar

Area of application: For medium and high sprinkling densities
fields of use: cultivation of vegetables on fields, fruit production, frost protection, sports and leisure time installations etc.

Connection female thread mm	30.93
Connection female thread	G 1"
Water throughput at 3 bar l/min	69.5
Water throughput at 4 bar l/min	80.3
Throw length at 4 bar approx. m	20.5 (standard nozzle equipment)
HD main nozzle, nozzle bore Ø mm	6.3
ZD additional nozzle, nozzle bore Ø mm	4.8
Recommended pressure range bar	3 – 8
PU units	1
Covering box units	15
Catalogue no.	706348SB
EDV no.	57.5662.9
